MATSim Association Membership Benefits

Corporate & Individual Membership Packages

January 2026

About MATSim Association

- Swiss non-profit organization supporting the global MATSim community.

- Advancing open-source multi-agent transport simulation.

- Connecting academia, government, and industry.

- Ensuring long-term sustainability of the MATSim ecosystem.

Why Become a Member?

- Access to the global MATSim developer and user community.

- Influence the future of MATSim development.

- Stay informed through exclusive communications.

- Support open-source sustainability and innovation.

- Create awareness of your institution's work using MATSim.

Membership Tiers

Individual
Member

CHF 120 / year

Small Team
(2–5 FTEs)

CHF 1,000 / year

Large Team
(6+ FTEs)

CHF 2,500 / year

Individual Member (120 CHF / year)

Ideal for researchers, consultants, and individual practitioners.

Benefits:

- Listing of your MATSim-related publications on the website, and re-posting your related LinkedIn posts (tag posts with @MATSim Association)

- Bi-monthly members-only newsletter.

- Access to quarterly online roundtables with MATSim core developers (forthcoming).

- Free attendance at user meetings.

- Priority access to support and learning materials.

- Listing in consulting and research partner directory (opt-in, not an endorsement).

- Voting rights in the Association General Assembly.

Small Team (2–5 FTEs) – 1,000 CHF / year

Designed for startups, university labs, or small consultancy teams.

Benefits:

- All individual benefits for up to five members.

- Logo and link on matsim.org Corporate Members page.

- One annual LinkedIn / matsim.org feature post profiling your projects.

- Priority GitHub issue tagging ('member' label).

- Participation in quarterly expert roundtables.

Large Team (>6 FTEs) – 2,500 CHF / year

For established companies, agencies, or research groups.

Benefits:

- All small-team benefits for the full team.
- Two annual LinkedIn / matsim.org feature posts, one of which becomes a showcase page.
- Option to host tutorials or regional meetings.

Corporate Value Proposition

Corporate membership supports MATSim's open-source infrastructure.

Organizations gain:

• Recognition for contributing to open transport modeling.

• Access to expert network and collaboration opportunities.

• Visibility to international transport simulation partners.

Examples of Member Engagement

- Collaborative workshops on transport policy and modeling.

- Co-branded tutorials and training events.

- Case studies on matsim.org and social media.

- Coverage of relevant participation in TRB, hEART, ISTDM, and related conferences.

Governance and Transparency

- Governed by an elected board
  representing academia and industry.

- All membership income reinvested
  into open-source maintenance and training.

- Annual reports and financial statements
  shared with members.
